# Exporting EndNote to BibTeX

For EndNote X20 version:

1. Open EndNote

2. Select the references you want to export

3. Click on File in top menu, then choose Export

4. Select the BibTeX option from the drop-down menu

5. Choose the drop-down options

- File name: use .bib for your file extension

- Save as type: choose .txt file

- Output style: choose BibTeX Export

6. Select the location you want the file saved

NOTE: If you don't see BibTeX as an Output style, you can add it from here:

- https://endnote.com/style_download/bibtex-export
